

VREDESTEIN
TYRES

Hints and features:

- The Vredestein Traxion Versa is an agro-industrial tyre for telescopic handlers, backhoe loaders and combine harvesters.
- Due to the shape and arrangement of its lugs, the tyre offers a flat and large contact area.
- The curved lugs are wider in the tread centre and thus enable good traction.
- Its reinforced sidewall in combination with a stabiliser ring guarantees maximum protection against tyre damages.
